

ADVICE FIRST TENANCY

GOLD COAST, QUEENSLAND

Reception Desk

Concept Floor Plan

An established financial planning firm had acquired a new space which they wanted to use to create a new vibrant image for their company. The time line between settlement on the new tenancy, construction and occupancy of the new space was tight.

The clients brief wished to accommodate their current staff and allow for the expansion over the years to come. It was important to the management that we created an enjoyable work space for all. Good natural light penetration and the introduction of a tranquil garden space to the centre of the office creates a good working environment for all the staff.

A large conference space which opens up on to the staff dining space allows the dining space to serve as a break out space for cocktails after evening seminars.

Budget : \$100,000

Design Period : 2 Months

Construction Period : 1 Month
